

Company Policy : Environmental

Introduction

This policy sets out our requirements for the control of our impact on the environment.

Company Responsibilities

All Company activities will be controlled to avoid causing unnecessary risks or adverse effects to the environment, in line with the requirements of the Environmental Protection Act 1990.

Company Policy

We require minimal effect on the environment in all aspects of our business particularly regarding office waste, site waste and during the consideration and finalisation of design solutions.

We will ensure that:-

- Environmental awareness and individual responsibility is developed amongst employees
- Vehicles and equipment are maintained and operated to ensure minimal impact
- Office waste is recycled (paper, packaging and equipment) as far as practical
- Local community interests are taken into account
- Natural habitats and wildlife are protected and undisturbed
- Pollution is prevented wherever possible
- Where necessary, ensuring environmental targets and objectives are set
- Continually monitoring performance and implement improvements wherever possible.
